

Archives/History

I went to UCF in April to look through the archives for information regarding the revision of the Student Activities and Student Day handbook. I looked all through the 1999-2000 minutes and even looked through several of the 1998 minutes to see if there was anything about revising the Student Activities handbook and Student Day program every 10 years. I found several notes in all three years regarding the revision of the handbook, but nothing that mentioned revising it every 10 years or any specific time span that it should be revised.

Also, I tried to look for something about the history of FSMTA, but found nothing specific. There are just several boxes full of information. I tried to glance through every box for anything I thought might have something of that nature. Primarily there are minutes, magazines and handbooks. There was some recording, which I thought was interesting.

UCF told me they were starting the process of organizing the information this summer. I will plan to go back in August after it has been organized, so it might be easier to locate specific information.

I also sent a letter to Dr. Mary Ellison's son, David Ellison, to see if he had any of Dr. Ellison's information from FSMTA. I have not heard back from him.
